"A. O. Smith delivered strong performance in the third quarter driven by continued strength in residential water heater demand and lower year-over-year material costs in North America. While the economy remains challenged in China, our sales grew 9% in local currency driven by new product offerings and improvement across most of our product lines. I am also pleased with our performance in India where we have delivered 17% local currency sales growth through September," noted Kevin J. Wheeler, chairman and chief executive officer. "Our global team remains focused on serving our customers which led to our strong results this quarter."

Segment-level Performance

North America

Third Quarter 2023

Third quarter sales of \$709.9 million increased 9% compared to third quarter sales in the prior year. Higher water heater volumes more than offset lower boiler volumes.

Third quarter segment earnings were \$170.0 million, an increase of 20%, and segment operating margin was 23.9%, an increase of 220 basis points compared to the prior year. Compared to third quarter 2022 adjusted segment earnings and adjusted segment margin, which excluded a pre-tax gain of \$11.5 million due to a judgment against a competitor related to patent infringement and pre-tax non-operating pension expenses of \$2.6 million, third quarter 2023 segment earnings and segment margin increased by 27.9 percent and 350 basis points, respectively. The higher segment earnings and

segment operating margin in the third quarter of 2023 were primarily driven by higher residential water heater volumes and lower material costs, partially offset by impacts of lower boiler volumes.

Rest of World

Third Quarter 2023

Rest of World sales of \$233.4 million increased 1% year-over-year, including an unfavorable currency translation impact of approximately \$11 million. In local currency, segment sales increased by approximately 6% year-over-year. The increase in sales was primarily driven by our recently introduced kitchen appliance products in China. Sales in India increased 13% in local currency.

Segment earnings were \$23.2 million in the third quarter of 2023, an increase of 6%, and segment operating margin was 9.9% in the third quarter of 2023, an improvement of 40 basis points compared to the prior year. The higher segment earnings and segment margin were primarily driven by sales of new products and favorable mix in China.

Balance Sheet, Liquidity and Capital Allocation

As of September 30, 2023, cash and marketable securities balances totaled \$341.8 million and debt totaled \$129.6 million, resulting in a leverage ratio of 6.4% as measured by total debt-to-total capitalization.

Cash provided by operations was \$439.0 million and free cash flow was \$396.3 million in the first nine months of 2023, which increased year-over-year driven by higher earnings and a more favorable working capital contribution primarily related to lower inventory levels and incentive payments.

As part of its commitment to return capital to shareholders, the Company repurchased approximately 2.4 million shares at a cost of \$161.4 million in the nine months ended September 30, 2023. As of September 30, 2023, authority remained to repurchase approximately 5.5 million additional shares. The Company expects to spend \$300 million repurchasing shares in 2023.

On October 9, 2023, the Company's board of directors approved a 7% increase in the dividend rate, resulting in a five-year annual dividend growth rate of 10%. For the full release, [click here](#).

3 Excludes impairment charge associated with the company's sale of its business in Turkey and pension settlement income. See accompanying GAAP to Non GAAP reconciliations for further details.

"We are very pleased with our team's continued execution through the third quarter, in particular, our margin performance. Our strong results, resilience in North America water heater demand and our current view of our price cost relationship give us confidence to raise our full year outlook," stated Wheeler. "Our revised outlook for the full year 2023 projects our sales to grow approximately 2% compared to last year. We raised our expected full year adjusted EPS to be between \$3.70 and \$3.80, a 19% year-over-year increase at the mid-point."

The Company's guidance excludes the potential impacts from future acquisitions.

A. O. Smith will host a webcasted conference call at 10 a.m. (Eastern Daylight Time) today. The call can be heard live on the Company's website [click here](#). To provide improved transparency into the operating results of its business, the Company is providing the following non-GAAP measures: total segment earnings, free cash flow, adjusted earnings, adjusted segment earnings and adjusted corporate expenses. Free cash flow is defined as cash provided by operations less capital expenditures. Adjusted earnings, adjusted EPS, adjusted segment earnings and adjusted corporate expenses exclude the impact of impairment charges, pension settlement income and expenses, as well as legal judgment income, expenses associated with terminated acquisition costs and non-operating pension expenses. Reconciliations from GAAP measures to non-GAAP measures are provided in the financial information included in this news release.

Forward-looking Statements

This release contains statements that the Company believes are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the use of words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "forecast," "continue," "guidance," "outlook" or words of similar meaning. All forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those anticipated as of the date of this release. Important factors that could cause actual results to differ materially from these expectations include, among other things, the following: softening in U.S. residential water heater demand; negative impacts to the Company, particularly the demand for its products, resulting from global inflationary pressures or a potential recession in one or more of the markets in which the Company participates; the Company's ability to continue to obtain commodities, components, parts and

accessories on a timely basis through its supply chain and at expected costs; negative impacts to demand for the Company's products, particularly commercial products, as a result of the severity and duration of the lingering effects of the COVID-19 pandemic; further weakening in U.S. residential or commercial construction or instability in the Company's replacement markets; inability of the Company to implement or maintain pricing actions; inconsistent recovery of the Chinese economy or further decline in the growth rate of consumer spending or housing sales in China; negative impact to the Company's business in China as a result of future COVID-19-related disruptions there; negative impact to the Company's businesses from international tariffs, trade disputes and geopolitical differences, including the conflicts in Ukraine and the Middle East; potential further weakening in the high-efficiency gas boiler segment in the U.S.; substantial defaults in payment by, material reduction in purchases by or the loss, bankruptcy or insolvency of a major customer; foreign currency fluctuations; the Company's inability to successfully integrate or achieve its strategic objectives resulting from acquisitions; competitive pressures on the Company's businesses; the impact of potential information technology or data security breaches; changes in government regulations or regulatory requirements; the inability to respond to secular trends toward decarbonization and energy efficiency; and adverse developments in general economic, political and business conditions in key regions of the world. Forward-looking statements included in this news release are made only as of the date of this release, and the Company is under no obligation to update these statements to reflect subsequent events or circumstances. All subsequent written and oral forward-looking statements attributed to the Company, or persons acting on its behalf, are qualified entirely by these cautionary statements.
