

## A. O. Smith Ranked Among America's Climate Leaders

June 11, 2025

Recognized by *USA Today* and Statista for carbon footprint reduction

MILWAUKEE, June 11, 2025 /PRNewswire/ -- [A. O. Smith Corporation](#) (NYSE: AOS), a leader in water heating and water treatment, has made the *USA Today* America's Climate Leaders list for the second time. In partnership with market research firm Statista, the listing highlights the top 500 U.S. companies that are actively working to reduce carbon intensity.

---

From 2021 to 2023, A. O. Smith reduced its Scope 1 and Scope 2 GHG emissions intensity by 12%.

Emissions data from more than 900 companies was evaluated. To make the list, companies must have reduced their carbon intensity by 3% year-over-year. From 2021 to 2023, A. O. Smith reduced its Scope 1 and Scope 2 greenhouse gas emissions intensity by 12%.

Top qualifications used in the ranking include:

- **Emission intensity:** The amount of Scope 1 and Scope 2 greenhouse gas the company produced relative to its revenue.
- **Annualized reductions in emission intensity:** This was calculated between 2021 and 2023. Any companies that showed low reductions were not considered.
- **Carbon disclosure rating:** A measure of a company's environmental sustainability. These rankings are administered by the [Carbon Disclosure Project](#), a nonprofit that runs a global disclosure system for companies' environmental impacts.

"We are proud of the work A. O. Smith is doing to reduce emissions, and this recognition culminates those efforts," said Noelle Brigham, ESG director. "We are constantly looking toward the future and innovating for the needs of tomorrow. Sustainability and being a good corporate citizen are ingrained in who we are as an organization through our corporate values."

Over the last two years, A. O. Smith has made significant strides in its commitment to sustainability, including:

- Announcing its first public enterprise-wide water goal with a focus on administrative controls, process optimization and water recycling technologies to advance our commitment to water stewardship
- Continuously innovating our water heating and water treatment technologies to be an industry leader in energy and water efficiency to consistently exceed regulatory standards
- Helping policymakers make positive change by ensuring public officials have empirical information as part of their decision-making processes
- Fostering a culture of innovation through employee development and recognition
